Sukantanagar, Sector-3, Kolkata, West Bengal, 700001, India | 7430045497

Motivated Computer Science student skilled in Java, Spring Boot, and Python, with a strong focus on AI/ML. Hackathon finalist (3/5) experienced in backend development, problem-solving, scalable systems, and building real-world, data-driven solutions under tight deadlines.

Education

Techno Main Salt Lake

Sep 2024 - Present

Bachelor of Technology (B.Tech) Computer Science Engineering (Cyber Security)

GPA: 8.1

Ramakrishna mission vivekananda vidyamandir, malda

Apr 2023

Higher Secondary Education (10+2) science

GPA: 86.2%

Languages

English, Bengali

Core Skills

Programming Languages: Java, Python

Backend Development: Spring Boot, REST APIs, MVC Architecture

AI / ML: Machine Learning Fundamentals, Data Preprocessing

Databases: PostgreSQL, SQL,

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming

Programming Tools: Git, GitHub

Certificates

DataStructure and Algorithms using Java

Nov 2025

NPTEL

Problem Solving Through Programming In C

May 2025

NPTEL

Additional

- 1) Participated in 5 hackathons
- 2) Finalist in 3 hackathons
- 3) Collaborated in teams to design, develop, and deploy functional prototypes within limited timeframes.
- 4) Ranked in the Top 10,000 contributors globally in Hacktoberfest, showcasing consistent open-source contributions and version control proficiency
